BACKGROUND

REINVENTING CONNECTIVITY

India Goes Fiber-Less with Its First Indigenous 5G FWA:
Faster Speeds, Lower Latency, Smarter Deployment

5G FWA is a significant stride towards spectrum distribution with self-reliance, India has unveiled its first indigenous 5G FWA solution. This homegrown solution promises enhanced connectivity, efficiency, and a future-proof foundation for India's digital economy.

5G FWA services will enable residents and businesses to experience ultra-fast internet speeds at low latency, faster deployments and enhanced reliability low latency without the need for traditional wired connections which is fiber less.

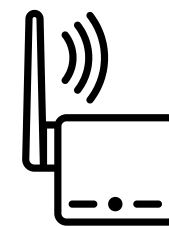

WHAT IS UNIQUE ?

- Fiber-less & SIM-less Design
- Integrated Plug & Play Domestic & Enterprise Solutions
- High-speeds, Dedicated Connectivity – Anytime, Anywhere
- BBNW & TC Compliance – with ISO 27001 & 9001 Data Security
- Fast & Easy Installation
- Turn-Key integrated solution for BSNL Micro Data Centers.

**HIGH SPEED
INTERNET FOR
EVERYONE**

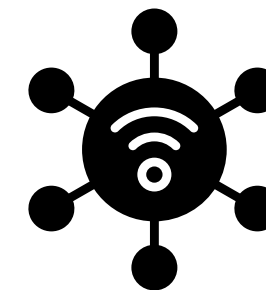

CATERS ALL RESIDENTIAL, RETAIL AND ENTERPRISE BUSINESS

Broadband

Residential 50 to 300 MBPS Plans with Tariff 249/- to 4999/-.

Customised
Prices

Leased Line

Caters institution and enterprises seeking leased network. viz; Banks, Schools/Colleges, Govt. offices, corporates, etc.

INR 50000 to 10L

MPLS

Service for bigger enterprises like MNC's, PSU's (Railways, Maharatna, etc), IT, Cloud, Data Centers, BPOs, KPOs & Call Centers,

INR 10L to 10 Cr

UNIQUE USE CASES
